

WASHERS AND DRYERS

LOADS AND LOADS AND LOADS OF QUALITY.

**BUILT TO DO 25 YEARS
WORTH OF LAUNDRY.**

 **Speed Queen**

BUILT TO LAST 25 YEARS

Speed Queen® has specialized in laundry since 1908. We know laundry. It's all we do. We plan, we test, we exceed expectations, and we never sacrifice quality for the bottom line.

Our commitment to maintaining high standards is intentional. The washers and dryers we've manufactured for over a century are proven to stand up to years of the most demanding commercial applications, and these are the same machines that are built and tested to last 25 years in your home.

COMMERCIAL GRADE MEANS BETTER MADE.

Quality comes first. The reason Speed Queen is the leader in commercial laundry is no mystery – stronger parts make for longer performance. While other manufacturers choose to build their washers and dryers using plastic parts, we use commercial-quality metal components throughout our machines.

Even our electronic controls are commercially designed for reliable operation and engineered to endure extreme moisture and climate, power surges, and vibration for years of trouble-free operation.

EXTREME TESTING.

We put our machines through rigorous testing long before you do. Employing a unique 5-stage product development process, we push our washers and dryers to the limits of endurance and reliability.

Speed Queen machines are tested to withstand more than 10,400 cycles – more than 25 years' worth of use in the average home – two to three times longer than other brands.

INDUSTRY-BEST WARRANTY.

The decision to offer the best warranty in the industry is simple. Your warranty should match the quality, durability, and reliability of your product and ours is the best. Our machines are built better to last longer and we back it all up with our industry-best 3, 5, and 7-year parts and in-home labor warranties.

BUILT BETTER TO LAST LONGER.®

DURABLE 3-COAT FINISH

designed to resist years of wear and tear in coin laundromats.

ELECTRONIC TOUCHPAD CONTROL

designed for commercial use and tested to 1,000,000 depressions.

200 SERIES AUSTENITIC STAINLESS STEEL WASH TUB

provides better corrosion and wear resistance than competitor 400 series ferritic stainless steel tubs.

TRADITIONAL FULL SIZE AGITATOR

helps move water through the clothes to create a better, gentler wash.

PORCELAIN-COATED STEEL OUTER TUB

is designed for use in a coin laundry. It won't chip, crack or corrode and it lasts longer than plastic.

SOLID MOUNT SUSPENSION SYSTEM

featuring a full steel base with heavy-duty springs for best-in-class out-of-balance performance, less vibration, and longer machine life.

COMMERCIAL-GRADE ELECTRONIC CONTROLS

tested to 10,400 cycles.

1 HP VARIABLE SPEED MOTOR

for commercial-grade wash performance.

HEAVY-DUTY, ALL-METAL PULLEY & DRIVE SYSTEM

for years of worry-free operation.

THE PERFECT WASH

- Next-generation technology provides an enhanced wash action. The agitator rotates with the basket in a series of long and short strokes, specific to each cycle and type of fabric, to create a better, gentler wash.
- The auto fill option takes the guesswork out of choosing how much water you need for your load. The machine will check and re-check the load as it fills and begins agitation, ensuring you will always have enough water for the best wash and fabric care.

BUILT BETTER TO LAST LONGER

- Tested to 10,400 cycles which equates to 25 years' worth of laundry in an average home.
- Constructed with premium, metal components.
- Spring suspension mounted on a solid metal base means less vibration and contributes to our best-in-class, out-of-balance performance.

DESIGNED TO LAST

Speed Queen machines are the result of cutting edge technology combined with craftsmanship that has been refined for over a century. We don't skimp on components or cut corners in design and engineering. We plan, we test, and we build our machines with commercial-grade metal parts that are proven to last 10,400 cycles, or 25 years' worth of laundry in the average home.

“Great Washer... The high quality is obvious, which is hard to obtain at any price with today's washers. The 5-year warranty and the expected long life are also reasons to buy this machine.”
– Brookings, Oregon

DRYERS

DR3

DR5

DR7

THE ULTIMATE DRY

- Ideally balances temperature, airflow and mechanical action.
- Automatically starts cooling the load once the preset dryness level is reached.

EXCEPTIONAL EFFICIENCY

- Superior tumble action delivers more efficient drying on larger loads.
- The Eco Cycle uses an advanced heating algorithm to conserve energy.

BUILT WITH PRIDE

Speed Queen has been producing washers and dryers in Ripon, WI for more than 100 years. Nowhere else. The sense of pride and Midwestern work ethic that goes into creating a product for homes across the globe is unmatched. American quality products made with American pride.

“ It’s a quality-built, made in the USA, clean, mean washing machine! Thank you Speed Queen for sticking in the USA and keeping quality in the forefront of laundry manufacturing. ”

– Winsted, CT

STACKED WASHER/DRYERS

SF7

DOUBLE PERFORMANCE IN HALF THE SPACE

Speed Queen® stacked washer/dryers deliver the same commercial-grade performance as our industry-leading single units in only half the square footage.

DYNAMIC BALANCING

- Manages and re-distributes unbalanced loads for uninterrupted cycles.
- Minimizes vibration to near-imperceptible levels.
- Virtually silent operation.

PARTNERED WITH EXPERTS

We partner with over 3200 local, independent dealers in neighborhoods across the US and Canada, ensuring you have direct access to resident experts and service providers.

“ Valerie at Chet’s Appliance gets an A+ for her professional selling skills. Otherwise I would have fallen for the big box brands that never last. ”
– Yucca Valley, CA

“ Went to Manny’s TV & Appliance in Hadley, MA (to see old George). When I asked what was the best USA-made machine, he smiled and said “Speed Queen.” Been extremely happy. Great machines! ”
– Southampton, CT

RECOMMENDED BY OWNERS

When you find something you love, you share it... but don't just take our word for it. 90% of our reviews are rated at 4 or 5 stars.

“ Best out there. Washes great and clothes smell very fresh, would recommend to anyone. ”

– Moscow, PA

★★★★★

“ By far the best-built washer I've seen for home use. It truly is a high-quality commercial washer for home use. It is nice to enjoy doing laundry. ”

– Minneapolis, MN

★★★★★

“ A REAL washing machine! I own three SQ washers and three SQ dryers. This new washer replaced 33-year old SQ models. THIS is why I've stuck with the SQ brand! Anytime you can get that kind of mileage out of a washer or dryer says something. ”

– Bloomington, IL

★★★★★

“ Been very happy with the quality and performance of this washer! Best machine on the market. ”

– Sunman, IN

★★★★★

“ I'm over the moon about my speed queen!!! Large capacity! I'm also happy to report that my Speed Queen has an economy wash too! ”

– Redlands, CA

★★★★★

“ I've gone through several washing machines over the years and not because of abuse. They just don't build them to last anymore. My Speed Queen is durable and does a great job of washing our clothes. It's wonderfully efficient as well. The best purchase of a washing machine we've made in the 30 years we've been married! ”

– Kansas City, KS
